

Sidewalk between the Voter Main Parking Lot and the “Red Door” entrance to the Voting Enclosure

Trentini Ave.

On Tuesday, 10/14/25, I observed the preschool dropoff/pickup parking at Hope Lutheran Church for the morning, noon, and late afternoon periods. This diagram summarizes what I saw and shows how voter parking should fit in with that.

I received no negative comments on this diagram from Church personnel.

The preschool “park and escort” procedure is very new at Hope Lutheran, so this may well need some later adjustment.

For more information on preschool parking and the times to avoid, see [here](#) in the [19-24.htm](#).

For some pictures of the area, including the “Red Door” entrance to the Voting Enclosure, see the [album](#).

To/From Rogers Rd.
